338 OVERSEAS DEAD PASS THROUGH CITY

Enroute in Special Train Over Erie for Idaho.

OHIO REGION MANAGER OF ERIE HERE WITH STAFF

Erie To Carry Shipment of Silk from California to New York City—Railroad News.

A special second Erie train No. 7 passed through the city at 7:35 o'clock this morning. The train was made up of fourteen express cars carrying the bodies of 338 overseas soldiers to various points in Idaho.

W. A. Baldwin, manager of the Ohio region of the Erie, and his staff of officials, made a business visit to the city yesterday in a private car. The party returned last evening to Youngstown, where Mr. Baldwin has his headquarters.

This afternoon between 4 and 5 o'clock, a special Erie train transporting a shipment of Japanese silk will pass through the city, bound for New York City. The load of silk was unloaded at a California port several days ago and is making a hurried trip across the continent.

J. H. Sweeney, out of the mechanical department of the Erie in Cleveland was in the city yesterday

Hoboes have deserted the freight trains, according to Marion detectives, and are now riding the trucks.

Big firms all over the country are now shipping by truck, which means a cleaner, safer and more comfortable means of travel.

In addition, truck drivers are said to be cheerful fellows who seldom object to the tramp "hopping on." Detectives claim they seldom find a side door pullman guest lately, although they admit that hundreds of men are going across country by bumming their way through on the passenger trains and dropping off in the railroad yards.

"These fellows are the kind who never hoboed, and have gone broke hundreds of miles from home. They're anxious to get home and get there quick, because the chances are they won't eat often until they do. They haven't the nerve to ride a freight, but beat their way back on passengers, sneaking away from the conductors," say detectives.

FINAL ACTION ON MONEY BILL

To Finance the Exportation of American Farm Products.

THE SENATE PASSES THE MEASURE TODAY

Methods of Export Financing Cause Wrangle.

Numerous Amendments Designed To Alter Path for War-Finance Corporation To Follow Were Submitted.

Washington August 4—With the formality of a roll call the senate today passed the committee substitute for the Norris bill providing for enlarging the powers of the war finance corporation to finance the exportation of American agricultural products.

The bill authorizes the finance corporation to make loans to producers, exports and banks in the United States to assist in providing a steady flow of farm products to overseas markets and to persons and firms in foreign countries engaged in marketing the products. It also makes the secretary of agriculture a member of the war finance corporation.

A Bitter Fight.

Washington, August 4.—As the time approaches, today, for final action in the senate on the amended administration bill to provide for financing the exportation of American agricultural products, a bitter argument was in prospect as to the extent to which the individual farmer would be benefited by the measure.

Members of the senate agricultural bloc who were divided as to the method to be adopted for the export financing when both the Norris and the Kellogg bills were before them, are swinging into line behind the McNary substitute reported by the senate agricultural committee, but a wide divergence of opinion still prevails as to the details of the operation of the international marketing scheme.

Senators sought, today, to shape the substitute bill more to their liking and to conform with their individual economic and financing views by the introduction of numerous amendments designed to alter in some particulars the path which the war-finance corporation will follow in making advances to banks and exporters in the United States and to dealers in Europe. Amendments were also offered by senators of the agricultural states who wish to assure themselves that the individual farmer will actually participate in the promised benefits. As the bill is now drawn, the war-finance corporation would not be authorized to deal directly with individual producers in making loans unless the producer was also an exporter, but several senators are insisting that more effective financing would be possible if farmers were permitted to borrow from the corporation instead of from local banks or other agencies

Poisonous Gases.

Washington, August 4. — The forthcoming disarmament conference in Washington will not lead to the limitation of the use of poisonous gases in war, is the opinion of Brigadier General Amos A. Fries chief of the chemical warfare service of the United States army.

DES MOINES DEPENDS ON MOTOR SERVICE

All Street Cars Stopped Under Order of Court.

Des Moines, Iowa, August 4.—Des Moines today is entirely dependent upon motor cars for transportation. Street cars stopped running at 1 o'clock, in compliance with an order issued by the federal court.

Forty motor buses of the Des Moines Motor Bus company were on the streets early today, in an attempt to take care of the early morning traffic. Trucks and other vehicles were pressed into service in the emergency.

Suspension of street car service followed an action by creditors, asking a receiver for the company. A receiver was appointed by Judge [illegible] after proceedings and sale of the property of the company is expected to be ordered in a few days. The reorganization is designed for the financial plight of the company.

SHIP SEIZURE NOT JUSTIFIED

Liquor Ship Outside Three-Mile Limit Safe.

LEADING OFFICIALS EXPRESS OPINIONS

No Precedent for Such a Seizure in American or International Laws.

Washington, August 4.—Seizure of the British schooner, Henry L. Marshall, with her liquor cargo off the Jersey coast, outside the three-mile limit and towing the vessel into New York harbor is of such doubtful legality that an expected protest by the British government will be upheld.

This was announced on the highest authority at the department of justice, today.

Seizure Illegal.

Washington, August 4.—Seizure of the liquor ship, Henry L. Marshall, off the Jersey coast, outside the three-mile limit, was without any legal justification, in the view of many leading officials of the government, today. Studying the strictly legal side of the case, they failed to find any precedent for such a seizure, either in American or international laws.

Commissioner Chamberlain of the bureau of navigation said in his experience he recalled no similar seizure anywhere on the globe. Maritime laws insure the immunity of vessels outside of territorial waters, unless they are in the pirate class, it was said.

The British owners of the schooner, Marshall, it is understood here, will seek the intervention of the British embassy and ask that a formal protest be made to the state department.

Officials of the department of justice have taken no official cognizance of the seizure and will not express an opinion until a formal report is received.

Formal Request.

Washington, August 4.—Revenue Commissioner Blair has received a formal request from the United States shipping board for a new ruling on the right of American vessels to carry and serve liquors to passengers aboard outside the American territorial limits.

The shipping board's request for a new interpretation of the Volstead act followed vigorous appeals from operators of American ships, who asserted that they are meeting ruinous competition from British and other foreign ships.

BUILDING-MATERIAL FRAUDS ARE CHARGED

Wholesale Indictments in Many Cities Are Promised.

Washington, August 4.—Investigation of building material frauds in scores of cities of the Middle-West justifies wholesale indictments and civil proceedings to dissolve certain unlawful "combines," Assistant Attorney General Fowler reported to the department of justice, today when he returned from Chicago.

Fowler's recommendations will lead to many federal court actions of a civil character in which the government will seek permanent injunctions restraining alleged lawless practices by groups of trade association officials said. Fowler's inquiry covered Illinois, Indiana, Michigan and [illegible]

PROCLAMATION OF PEACE NEAR

Attorney General's Report is Ready for President.

RECOMMENDS ISSUE OF PEACE DECLARATION

Report Will Be Submitted to President in Washington. Figures on Expense.

Washington, Aug. 4—Attorney General Daugherty's report to President Harding recommending that a proclamation of peace with Germany be issued, is ready to be sent to the president, it was learned at the department of justice, today.

The report will not be laid before the president until he returns from his New Hampshire trip, probably next Wednesday. Further, it was said there may be some further short delay in the actual promulgation until reasonable time has been allowed for its consideration by the full cabinet.

Some Cost Figures.

Washington, August 4.—The cost of running the United States government for the fiscal year, 1922, will be $4,580,000 according to revised estimates placed before the house ways-and-means committee, today, by Secretary of the Treasury Mellon. He estimated that salvage and miscellaneous receipts would yield $350,000,000 of this amount and customs, $374,000,000, leaving $3,230,000,000 to be raised in taxes.

TURKS RESORT TO GUERILLA WARFARE

Resistance to Greeks in Anatolia Is Broken.

London, August 4.—Turkish resistance to the Greeks in Anatolia has been reduced to guerilla warfare, according to official advices reaching the foreign office, today.

The Turks are still killing and deporting Greeks in the Trebisond district.

The Turkish nationalist government at Angora has not yet sued for peace, but is seeking mediation.

The British are not inclined to mediate, officials declared, because of the repudiation of their agreements in the past and also because the Turks refused relief to British prisoners.

Fails to Enter.

New York, August 4.—"O, Say Can You See———" The childish treble of the little four-year-old Fritz Bargo, German orphan, quavered over the high notes of the national anthem, today, as he tried to persuade immigration officers he would make a good citizen. Hard-hearted they sent him back to Ellis Island until he should produce other qualifications besides his knowledge of the "Star Spangled Banner."

Takes His Office.

Charleston, West Virginia, August 4. — George V. The oath was administered by Gordon W. Matthews, notary public and law partner of Mr. McClintick.

Demand for Records.

Washington, Aug. 4.—The death of Enrico Caruso already has led to an overwhelming demand for phonograph records of his voice, according to Washington dealers. One of the largest houses in Washington reported, today, that it has several orders for every Caruso record in the shop.

Turns Down Request.

Washington, August 4.—The senate committee which investigated Henry Ford's election fraud charges against Senator Newberry, Republican Michigan, refused again today to grant the request of Senator Pomerene, Democrat, Ohio, to summon Newberry to testify.

"The Knights of Columbus has certified by state commissioners of insurance and by no less impartial an authority than the Dominion of Canada as 126 35 per cent solvent—the highest rating ever achieved by any fraternal organization. Two thousand two hundred and sixty-two members of the Knights of Columbus died during the twelve month period covered. There was an increase of 119 in the number of Knights of Columbus councils. Amalgamations of various councils in large cities affected the proportionate growth of Knights of Columbus units."

Flourishing.

So flourishing is the condition of the Knights of Columbus insurance system, the report shows that the Knights of Columbus board of directors has waived one of the monthly assessments on the insurance membership for 1921—an act unprecedented in fraternal organizations since the end of the war and the termination of the costly influenza plague which resulted in the Knights of Columbus paying more than $1 000,000 to the heirs and legatees of victims

Knights of Columbus councils and their entire memberships participated in two national charity drives on a large scale—the Herbert Hoover European relief council drive and the campaign for the committee on relief in Ireland—as well as in many local charity appeals It is estimated that the Knights of Columbus was instrumental in raising between $4,000,000 and $5 000 000 for these causes. The knights also transmitted to Cardinal Mercier approximately 350,000 francs for his Belgian reconstruction work

Mr. McGinley announced that the educational work and hospitalization reports and budgets, covering work by thhe Knights of Columbus for disabled and other former service men, would be made public later.

His report estimated that by 1922 the Knights of Columbus net membership would approximate the 1-000,000 mark, and stated that during the year five new state jurisdictions had been erected—North and South Carolina, Prince Edward Island, Nova Scotia and New Brunswick

Bellefontaine Team Sunday.

The Marion Daily Stars hope to be at their best and getting their share of the breaks next Sunday when they meet the Bellefontaine city team, at Lincoln park The Bellefontaine team gave the locals a hard battle last season and with additional strength are going in fine form this season. The Logan county champions have defeated a couple of the teams that have been beaten this season by the locals and by proportionately the same scores They are coming confident of winning from Marion and the locals will put forth their best efforts to avoid two successive defeats Bellefontaine expects to bring a large number of rooters and when the contest starts at 2:30 o'clock, a large crowd will be on hand to root for their favorites.

Refined Millinery Creations are now ready for Fall.

Certain of conquest are these new fall hats, so irresistibly gay so charmingly "different," and ready to take their part in the new styles for fall

New fabrics, new colors, new trimmings, new shapes have been adopted. Among the most recent arrivals are the new hatters' plush, braided sailors with colored facings and dainty duvetyn and feather combinations.

You may choose here a hat you will instantly recognize to be the newest of the new, at a price that compares favorably with that of less authoritative models shown elsewhere.

WEATHER IDEAL, PICNIC OF MERCHANTS SUCCESS

Most Entertaining Program for the Big Crowd.

GROCERS COP BALL GAME NARROW MARGIN

Various Contests and Their Winners—Army of Boys on Hand for Events.

Grocers, butchers and bakers were busy Wednesday afternoon at Lincoln park at the second Merchants' picnic of the season. They furnished a most entertaining program consisting of a baseball game, contests for every body, a balloon ascension and a band concert in the evening for the hundreds of people who participated in the outing.

Wednesday afternoon's crowd far eclipsed that of two weeks ago. The grand stand was packed for the baseball game at 2:30 o'clock between the grocers and a team composed of butchers and bakers. This crowd overflowed into the bleachers and the people remained until nearly 7 o'clock for the completion of contests. The balloon ascension followed and there were numerous picnic parties. In the evening Dowler's band gave a concert and the pavilion was opened for dancing.

Grocers Win Ball Game.

The grocers defeated the butchers in the baseball game by a score of five to four. Six innings were played and the teams proved rather evenly matched. The grocers decided the contest by scoring the deciding run in the first half of the sixth. The score:

Grocers	0	1	0	2	1	1	—5
Butchers - Bakers	0	1	1	2	0	0	—4

Batteries—Marshall and Sealey, Garn; Gillette and Griffin.

Entrants in the various contests were warmly cheered by the crowds and many of the events brought roars of laughter, especially the efforts of the contenders in the pie-eating contest. Berry pies were furnished and the contestants were obliged to eat with their hands tied behind their backs.

There was an army of small boys swarming over the field during the entire program and it would have taken a regiment of police to have kept them out of the way. The ropes were moved and the boys pushed back numerous times, but it was only a moment afterward that the crowd was back, the youngsters craning their necks around some obstacle in an effort to keep from missing any of the events.

List of Winners.

A list of the contests and winners follows:

Running high jump for boys under twelve years of age, twenty-five pound sack of sugar, won by Donald Cram, of Girard avenue. He jumped four feet.

Standing broad jump for boys ten to fourteen years of age, twelve cans of pineapple, won by Harvey Young, of Patten street.

Horseback race, boys twelve to fifteen years of age, twelve cans of apricots, won by Wilfred Jerew, of Owens street, and William Jevis, of Oak street.

Sack race for boys fourteen years of age and under, six packages of coffee, won by Donald Rueger, of east church street.

Running backward race for girls twelve years of age and under, twelve cans of peaches, won by Clara Ubl, of Tully street.

Running high jump for girls sixteen years of age and under, five-pound box of chocolate candmels, won by Mary Garfield, of Fahey street. She jumped three feet, five inches.

Hop, step and jump for men twenty-five years of age and over, twelve cans of condensed milk, won by E. W. Lash, of Bennett street.

Oh, You Fat Men!

Fat man's race, open to all fat men, ham, won by J. W. Roseberry, of east Farming street.

Potato race for men twenty-five years of age and over, twelve cans of corn, won by Pearl Garn, of Short street.

Nail-driving contest for women, washboiler, won by Mrs. J. W. Jamison, of Henry street.

Pie-eating contest open to all, first, five dollars, won by Douglas Smith, of Fairground road; second, two dollars, won by Henry Warner, of north Main street, and third, one dollar, won by Mary Garfield, of Fahey street.

Fifty-yard dash for women eighteen years of age and over, sack of flour, won by Margaret Masterson, of Olney avenue.

Egg race for women, open to all, six cans of fancy preserves, won by Mary Garfield, of Fahey street.

Tug of War.

Tug of war for men, box of cigars. Eleven men were ranged on each side for this contest which lasted only a little more than a minute. The eleven on the south side of the rope won easily.

High jump for men twenty-five years of age and over, ham, won by Patrick King, of north Prospect street. He jumped four feet, four inches.

Back race for men twenty-five years of age and over, order for two dollars worth of groceries, won by Patrick King, of north Prospect street.

No entries could be obtained for the potato race for women and this contest was abandoned.

Why Good Paint Is Cheapest

Bargain paints at "special" prices are usually worth far less than the price asked. After they have been on a while, they fade and usually crack and peel off, exposing the surface beneath to the wear of the elements.

Shepard Paints are made for service. They hold their colors, and keep buildings thoroughly covered with a weather-proof coating. All ingredients that enter into their making are of the highest grade. Our method of selling these paints direct to the consumer through our own retail stores enables us to save the jobber's profit and sell at prices far below other high grade paints.

Shepard's paints are not cheap paints, but they are low priced.

MARION LOAN OFFICIALS WILL GO TO CEDAR POINT

Aboard Special Train of Ohio Building Association.

Officials of the Citizens' Building & Loan company, the Home Building, Savings & Loan company and the Marion Building, Savings & Loan company will go to Cedar Point for the annual convention of building-and-loan people, aboard the special train of the Ohio Building Association league which leaves Columbus August 23, at 2 o'clock The train will make only three stops, of which Marion is one.

The building-and-loan men will have a three-day convention during which time they will hear William Mather Lewis, recently of the United States treasury department, John R. Cassady, tax expert, and others.

According to Secretary James A Devine, of the Ohio Building Association league, this meeting of the building-and-loan men will be of extreme importance. "The great need for homes is a problem that can be solved only by the building-and-loan companies," said Devine He declared that when investors turned from wildcat schemes to the institutions of recognized safety, there would be plenty of money with which to build homes

Many Plaid Skirts—

Are Reduced to Clear Quickly at $5.00

Most people of Marion know the high standard of the quality and style of the garments displayed here. At the time of writing this the choosing at $5 is wonderful. All our entire stocks are reduced to ridiculous prices. Come down tomorrow and look over these bargains. A great desire to be rid of all garments has prompted us to make extremely low prices.

All Wash Skirts go at

$1.49 $1.98 $2.49

At the time this ad is being written we have 67 wash skirts—some were as much as $7.50—all go at the above prices. They're of satinettes and fine twilled gabardines—all the newest styles. Now you can afford an extra one or two to finish out the season.

Wouldn't It Be Worth a Great Deal To You To Know That All Your Valuable Papers, Records, Bonds or Securities Were Safe?

Positively Safe from Fire, Theft, Or Loss! Just Where You Alone Could Put Your Hand Upon Them at Any Time

OUR massive new steel and concrete Banking Vaults include one big separate and distinct compartment devoted exclusively to a modern system of Fire-Proof, Burglar-Proof Safety Deposit Boxes.

These boxes—each having its own individual lock and key—afford a place of absolute safety and security—where one's valuables and important papers may remain safe from any possible mishap.

Since these boxes are being spoken for every day that passes, we fear that it will be but a short time before the entire available supply will have been taken.

It is advisable to arrange about your Safety Deposit Box in the near future—unless you care to risk disappointment.

There are many different sizes from which to select. Sizes suitable for any individual or business enterprise. All of them at very reasonable rentals—ranging from $3, $5, $8, $12 to $15 a year.

THE HUB OF COMMERCE.

Daily Proverb—"Government of the will is better than increase of knowledge."

Some women marry for love, but it's a sad fact that far too many marry for alimony

What has become of the woman who used to complain that her husband went down town every night and left her alone,

Why do not Lloyd George and Lord Northcliffe submit their difference to the supreme council of the league of nations?

It's a bit hard to understand all this talk about a house shortage considering how few people, apparently, ever stay at home

The Washington Post says that "only the dead can converse with the league of nations" Are we to infer from this that it is beyond the pulmotor stage?

A steady rain of twenty-four hours may not seem so impressive as a cloudburst, but it's enough more effective when it comes to the matter of filling a cistern.

No doubt, to those who have visited them, those hootch ships out beyond the three mile limit do look a bit mysterious.

Still, there is never any telling Tax paying might be made popular with a lot of people by giving coupons to each tax payer for some cheap "prize"

According to a French scientist, women will rule the world for the next hundred years No change in sight, hey?

A Buckeye exchange says dealers will not sell cigarets to minors after August 14 It probably means that it will be unlawful to sell cigarets to minors after that date

We will be willing to wager a new hat against a nickel that the Wisconsin policeman who never heard of Colonel Bryan isn't a Democratic politician

According to a British visitor, it's harder to obtain booze in Canada than in the United States, but this may be nothing more than a bit of propaganda to boost Canadian immigration.

"Every man to his taste," observed the restaurant philosopher at luncheon today, "but to my mind the golden bantam bears a relation to good sweet corn somewhat similar to that a Ben Davis does to an apple."

One notes some commendation being expressed for the metropolitan dailies which are getting back to normal by charging two cents What should be said of the smaller dailies which maintained that price throughout the war and the still more difficult days coming as its aftermath?

The East Ohio Gas company has filed a revised schedule of rates with the state public utilities commission. Of course, higher rates constitute an additional burden on the consumer, but they are not without their compensations, almost invariably they guarantee the supply.

It is now claimed that the universe is easily a thousand times bigger than it was formerly supposed to be, but even were the claim established there are some people who would cling to the belief that all of it was designed solely as a sort of a trimming for this little speck in space we call the "Earth"

There's another matter in which the average paragrapher has it all over an American ambassador: he doesn't have to go chasing up and down foreign lands looking for a home.

There's this to be said for the dimmer law to go into effect August 15, if it is enforced as it should be—and there can be no excuse for failure to enforce it, as any gleaming headlight will give notice of the law's violation—it will bring relief to long suffering eyes and work reduction in the number of automobile accidents In a matter of fact, automobilists and pedestrians alike will reap benefit from it and both should work for its strict enforcement

THREE LINES OF LABOR.

The government is now engaged in three lines of effort for the promotion of the welfare of American labor It is restricting immigration, framing an important tariff on the products and building up our export trade

Restriction of immigration has a dual purpose—to protect the labor of America at a time when there are more men than jobs and to give opportunity for the Americanization of the foreign element already here without admitting any considerable number of new immigrants In both particulars the effect upon American labor will be good There will not only be less competition in numbers of workmen but as a result of the Americanization of those in the country their standards of living will be raised and they will expect and ask the same wage standard the American workman desires

The enactment of an important tariff law will supplement the restriction of immigration There is little use protecting the American workman from the competition of underpaid labor if we are to leave our ports open to the free admission of the products of foreign labor A workman who can come to this country and lower the standard of wages and living of his competitors here can also lower the American standard by producing goods at home and shipping them here to be sold in competition with the product of American labor That is a fact frequently overlooked by those who favor restriction of immigration, but oppose any restriction on the importation of the products of the labor of the men they do not wish to admit as immigrants In truth, if we are to choose between admitting foreign labor or the products of foreign labor, the former is preferable, for the foreign laborer admitted to this country will spend much of his earnings here, while the foreign laborer who produces at home and ships the product here, spends his earnings abroad It is not proposed to enact an import duty that will be absolutely prohibitive, but to make the import tax high enough to represent the difference in cost of production, and thus put the American producer of an equality with his foreign competitor

In building up export trade the government is pursuing several plans—permitting combinations of export sales, sending trade representatives to all the principal nations and maintaining a merchant marine which will be an agency for the establishment of regular trade routes as well as extending the opportunity for shipment of American goods to markets not hitherto reached. Every dollar's worth of American goods shipped abroad means a dollar to be expended for the payment of American wages or the purchase of American raw materials

Since Leon Trotzky has been made food dictator of Russia it takes but one guess to hit on the man he will dictate shall be fed first

One great danger in feeding the Russians will be that those responsible for Russia's awful plight may be fed at the expense of the stomachs of their victims.

VIOLATION OF LAW.

Prohibition Commissioner Haynes asserts that the American who does not see in the bootlegger a danger as great as the Bolshevik is a short-sighted individual Indeed, the bootlegger is worse than the anarchist of the so-called philosophical stripe, because while the latter may contend that there should be no law whatever, he is not customarily a lawbreaker, and the illegal seller of liquor is It is a dangerous attitude to take—that of tolerant opinion toward breaking the law, no matter what the law is or who the person is who is guilty of its infraction Even if "personal liberty" so dear to Americans, were being interfered with in the enforcement of the prohibition law which, of course, it is not, there still would exist no reason for flouting it

Prohibition is a law—a part of the constitution—and violation of it is just as much a crime as the breaking of other laws, no matter what an individual's opinion about the matter may be Appeal made through the personal liberty channel is intended to blind individuals to the real seriousness of the situation Every time an American is tempted to break the prohibition law or to wink at its violation by others he is treading on dangerous ground

The fact that the new law has been found difficult of enforcement is no indication that it is impossible of enforcement, nor proof that the country does not want it. Many states had prohibition before the federal act became operative. They had their bootleggers, too, but they remained in the prohibition column despite frequent battles in which recourse to the ballot was taken.

We believe a majority of the people of the United States, whatever their views on prohibition, are for strict enforcement of the law while it is on the statute books That it will be strictly enforced in time seems certain, but the officers in charge will have an easier time if those who really respect our general laws will become thoroughly law-abiding and not permit camouflaging phrases to blind them

When the violator of the prohibition law occupies the same plane in public opinion as the bootlegger, mail bandit or transgressor of any other federal statute, enforcement of the dry act will be much simplified

MIGHT HAVE SALUTARY EFFECT.

A Cincinnati bank announces that employes will be given a target practice with revolvers, as a precaution against bandits and a range has been located in the basement of the bank The plan adopted by this bank might well serve as a suggestion for other institutions [illegible] to be overlooked by the bandits

LIFE'S VAUDEVILLE.

[By Dr James Ball Naylor.]

HARDING IS KEEPING His PROMISES.

"Why isn't Harding keeping his promises?"

"Why isn't he doing something for the relief of the country"

Some impatient persons are asking such questions

And such questions are to be expected, perhaps, under such circumstances and conditions.

But we want to be just

The president is doing all in his power to fulfill his pledges to the people of the United States and the world

We must remember, however, that while he is the leader of our government, he isn't the whole government

Rather, the people themselves are the government

First they must be made ready and willing for any more the president contemplates

Then the president must act constitutionally

He can't invade the realm of the judiciary department he can't usurp the powers of the legislative department

He can advise and counsel, but he can not order or command.

The machinery of our government is a cumbersome and complex thing, and this machinery must be set in motion, kept in motion, and coordinated effectually and efficiently before it can operate satisfactorily

President Harding is doing his best.

He has a man's job on his hands, and manfully he is attacking it

But he isn't an absolute monarch, whose word is law, he is just the chief executive of a free people

Says The Week, of Columbus, Ohio

"In reflecting upon the dilemma confronting Harding, when he took hold, we must remember that the situation was extraordinary, in many ways All government functions were in a partial state of paralysis because of the critical illness of his predecessor for many months before Harding assumed responsibility He found the government disorganized even in ordinary matters. But this is nothing compared to the confusion he found because of the situation resulting from the war It must be remembered that Harding had to tackle and control not a war organization conducting a war but a war organization in collapse He was faced with the hedlam naturally resulting from such a situation, a hedlam which extended throughout the world and which had in it elements of extreme danger to the very foundation of the government itself"

But President Harding has been doing his level best to keep his promises

He has been in power about five months

And in that time he has earnestly sought to bring order out of chaos in the various government departments, and thus reduce expenses

Looking to that end he has appointed Walter F Brown as chairman of a committee to look after such affairs

Then he has selected Charles Gates Dawes ahead of a budget commission—seeking further to save expenses and stop waste

Too, he has called congress into extra session, to take up the questions of tariff, taxes, soldier relief and international adjustments, and congress is working on these things

If congress is functioning too slowly the president can not be held responsible he has set it at work—and urged speed

President Harding is keeping his promises

GREAT OPPORTUNITY, GREAT SPEECH.

[Cincinnati Enquirer.]

At the historic Plymouth Rock ceremonial President Harding looked upon the panoramic reproduction of one of the chief events in all past human experience The visioned centuries told their tale of high, heroic endeavor, of immortal achievement He drew from the story his prophetic hope for an incomparable future

The president's practicality never was more clearly demonstrated Perhaps he wished to clear away any lingering doubts as to his position with reference to important issues, to provide against misinterpretation of his convictions Be that as it may, his words fix him squarely where his friends and the people generally have believed him to stand

"It is good to keep our feet on the earth, though we gaze in high hope for human brotherhood and high attainments"

That is it. The practical mind for material things "amid effective pursuit of the Pilgrims' high ideals" must be ours in dealing with our inheritance

The president gravely warned against the growing assumption that the state must support the people He proclaimed that the sole function of government is to govern Its office is to guard and protect the individual in his rights it stands as the guarantor of the spirit of liberty. It should be divorced from all participation in private business He exalted the individualism of the citizen

High and clear sounds this firm proclamation—"The freedom of those who compose the government only can be preserved by guarding against the supreme centralization of power at home and the superstate for the world"

There we have it That is plain as a pikestaff He will have none of the league of nations

Quite as clearly he raises his great against "the one outstanding danger of today—the tendency to turn to Washington for the things which are the tasks or duties of the forty-eight commonwealths which constitute the nation"

This is the gospel of the fathers If this tendency be not destroyed then was the early dedication of the Pilgrims to religious liberty and political freedom vain But it was not vain since America never will permit the assaults of the enemies of democracy against the most precious of our institutions to prevail In the president said in the rededication of these principles we plight for all America and for all the world the standards of highest justice and real human brotherhood.

EASTERN STAR AND MARION LODGE PICNIC

Which Is Attended by Fully 1,400 People Yesterday.

A BASEBALL GAME AND VARIOUS OTHER CONTESTS

Grotto Band Furnishes Music for the Big Event—Dancing in the Evening.

The big joint picnic of Marion Lodge No. 70, Free and Accepted Masons, and Lydia Chapter, No. 83, Order of Eastern Star, held at Garfield park Wednesday afternoon and evening was one of the most successful and most enjoyable out-door gatherings ever held by local Masons and their families.

The weather was ideal and many Masons and Eastern Stars from the surrounding towns and neighboring cities as well as cities of greater distance, joined in the festivities of the day. Fully 1,400 people were in attendance and the affair was one joyous round of gaiety.

Early In Afternoon.

The Masons and their families began gathering early in the afternoon and the first attraction staged for their entertainment was a ball game which was one of the features of the afternoon program. It afforded much entertainment for the spectators. John H. Clark's team clashed with Bob White's team and the latter showed much better form and won by a score of thirteen to eight. The winners did not play as good a game in the field in point of errors of commissioon, but the losers had more errors of omission and were not the sluggers as the Bob Whites.

Grant E. Mouser, Jr., who was on the mound for the Clark team, pitched good ball, but his support was loose. He walked but two men and fanned six.

Emulates Babe Ruth.

Harry Smith, who pitched for the White team, walked three and struck out but four. White did the Babe Ruth act by hitting for a circuit of the bases. The game was hotly contested and it required three umpires. The features were the hitting of Ulmer and Smith, the fielding of Foster and Mackan and John H. Clark's manager tactics in trying to put his team in the lead.

The teams lined up as follows.

Clarks—John Clark, rf.; Harold Foster, ss; Roy Prichard, 1b.; Arthur Harris, c.; E. Marshall, lf.; Lloyd Zieg cf; Lamar Crissinger, 3b.; Albert Kettle, 2b.; Grant Mouser, Jr., p.

Whites—Lawrence Baker, 2b; Edgar Thomas, cf.; William Ulmer, c.; Harry Smith, p.; Elmer Mulvaine, lf; John Mason 1b.; Bob White, rf; Percy Callahan, 3b, Ernest Mackan, ss.

During the ball game contests were held for the women, boys and girls, consisting of nail-driving contests, ball throwing, watermelon eating and other contests. There was also horseshoe pitching and a tug of war.

After the contests the Grotto band of forty pieces, made up of finished musicians, all of whom had been members of other bands prior to the organization of the Grotto band, gave an excellent program of selections, playing in the park until 5 p. m. and from 7 until 8 p. m. in the park pavilion.

A sumptuous picnic supper was served about 6 o'clock at long tables placed northwest of the pavilion, a numbr of families grouping together at each table.

After supper the awards for the contests were made and later dancing was enjoyed at the White Maple pavilion nearby. The music for the dance was furnished by the six-piece orchestra of Fostoria.

The committee in charge was composed of Mr. and Mrs. J. E. Messenger, Mrs. George A. Gretzer and Byron E. Wilson, representing the Eastern Stars and Asa Queen, George E. Gretzer, W. C. Selanders, C. C. Pettit and J. A. Knapp, the Masonic lodge.

ABSENT FROM DRILL, SEWELL IS ARRESTED

He's Now Thinking It Over in City Prison.

More arrests are expected to follow since there are several unruly soldiers on the company's roll.

Those arrested will be confined until leaving time for Camp Perry which will be August 6 it was announced today.

Picnic at Delaware.

Rural mail carriers of Union county will hold their annual picnic Sunday, August 7, at Greenwood lake, Delaware. An excellent program has been arranged. This program will begin at 2 o'clock. David Neal, of Richwood, is president of the county association or rural carriers.

HE GOES OUT TO MILK, FARMER DROPS DEAD

Charles A. White Taken Near Richwood Wednesday.

Richwood, O., August 4.—[Special.]—Charles A. White, farmer, died suddenly at his home in Jackson township Wednesday evening at 6:30 o'clock from heart trouble. He had not been well for more than a year, suffering from hardening of the arteries, but was feeling unusually well yesterday and had gone out to milk when he fell over dead.

Mr. White was fifty-four years of age and was born in Jackson township, a son of Mr. and Mrs. Jesse White. He leaves his widow and three sons, Ralph, of Detroit; Harry of near Essex, and James of Broadway; a brother, John David White, of Essex, and two sisters, Mrs. John Smeltzer, of Arbela, and Mrs. Dowling Blue, of near Essex.

The funeral will be held from the M. P. church at Essex Friday afternoon at 2 o'clock, Rev. M. R. Stover officiating. Interment will be made in the Price cemetery.

CAPTAIN PASCHALL HURT IN CAMP PERRY STORM

Struck on Head by Tent Pole. Not Serious.

Information was learned today concerning an accident which occurred to Captain G. V. Paschall, commanding officer of the local Howitzer company.

Captain Paschall and his wife were in the midst of the hurricane which swept Camp Perry last Saturday and a tent pole struck the captain on the head, injuring him slightly. Mrs. Paschall fainted during an effort to gain safety from the hurricane, but soon recovered. Mrs. Paschall returned to this city the first of the week, but returned to Camp Perry today, where her husband is assisting in the camp work.

RURAL TRANSPORTATION CHEAPER FOR PUPILS

Thousands of Dollars Will Be Saved Boards.

ONE DISTRICT ALONE TO SAVE ABOUT $1,300

Competition This Year Is To Lower Excessive Costs of Former Years.

Boards of education in Marion county this year will save thousands of dollars in transportation of pupils, bids now being received for this work indicate.

In one district alone, where bids already have been opened, it is estimated that the cost of transporting pupils during the coming year will be more than $1,300 less than the amount expended for this service by the district last year. Some routes that were awarded last year at a rate of $110 a month are being sought this year by bidders at figures as low as $80 and $85 a month.

Competition Main Reason.

Competition appears to be the main reason for this drop in prices, as there is a much larger number of bids being received this year. In other years where only ten and twelve bids were received, the boards are receiving as many as forty bids for the work this year.

There are approximately sixty-five transportation routes in the county. Most of these are wagon routes. The only exceptions are in a very few cases where the district have been able to arrange the routes entirely on pikes. In these cases the routes are motorized.

VEIOCK ON SPORTS

New York, August 4.—If Johnny Wilson wants to clear up the middleweight title muddle quickly, to prove that he is still champion as he claims, he can do it right here in New York.

The New York state boxing commission, it was explained by Commissioner Tom O'Rourke, today, will permit Bryan Downey and Wilson to box within its jurisdiction, provided they box among themselves. Otherwise, they must go elsewhere and have it out before either will be permitted to box in the Empire state.

"The decision of the commission," said O'Rourke, "was misinterpreted by certain parties at the outset. The rules are not up against Wilson and Downey if they want to meet here, but they will not be permitted to box anyone else until they have settled their dispute somewhere. Wilson already has a New York license. But he will not be permitted to use it again until or unless Downey. If he is matched with Downey, the latter will be granted a license at once.

"The decision was reached by the commission after careful consideration of reports from Cleveland. These reports were unofficial, however. We have not received an official report from the Cleveland boxing commission."

Speaking for himself only, O'Rourke indicated that he, personally, believes that Wilson is the champion of his class until he is beaten "regularly." That is, until a referee's decision, or the decision of a referee and two judges settles the difficulties between him and Downey.

Meanwhile, Jimmy Dunn, manager of Downey, has his fighter here seeking a match with somebody and is willing to take on Wilson if the Charlestown battler will agree.

"Nothing will please Downey better than to meet Wilson at the middleweight limit in a New York ring," said Dunn today. "We are ready to fight and that shows our good faith. If Wilson is ready, so much the better. The only fault I find with the ruling of the New York commission is that it leaves Downey in the hole, as he must box Wilson first or no one and he has been left out in the cold as far as New York is concerned, if Wilson refuses to meet him."

So it's all up to Johnny Wilson now. New York promoters stand ready to make the match the minute the fighters will agree to meet on Gotham soil.

WITH THE PUGS

To Arrange Fight.

Mexico City, August 4.—The Mexican government will turn pugilistic matchmaker, if plans under contemplation today go through. The government wants to arrange a fight between Jack Dempsey, heavyweight champion and former champion [illegible] Fulton, as a part of the centennial celebration in September. It was reported that Dempsey would be offered a purse as big as that at the Carpentier fight at [illegible] he will come here and meet the negro pugilist. The bout [illegible] celebrate Mexico's hundred years of independence.

Bouts Tonight.

New York, August 4.—With bright weather the order here today, the promoters of the Gibbons-Ratton and Tunney-Burke bouts at Dyckman oval announced that they would be staged tonight.

Finish Training.

Chicago, August 4.—Joe Welling, crack Chicago lightweight and Sailor Freedman finished training here today, for their ten-round battle at Aurora, tomorrow night.

Matched Today.

Chicago, August 4.— Pal Moore and Jack Sharkey, bantamweights, were matched, today, for a ten-round bout at East Chicago, August 16. The bout takes the place of one between Johnny Wilson and Harry Greb, which was cancelled after the Wilson-Downey mixup at Cleveland.

Lowest Prices Ever Quoted

on Titan and International Tractors

The Harvester Company has made another big price cut on Titan and International tractors. This reduction wipes out all former advances and puts these tractors at the lowest prices at which they have ever been sold. We are offering:

international 8-16, $900

This price is about one-fourth less than that of March 1, 1921. The new price includes all necessary equipment—platform, fenders, governor, belt pulley — which cost extra on some tractors.

Titan 10-20, $900

This is the lowest price ever quoted on the Titan, considering equipment included (formerly sold extra). At this price the Titan 3-plow tractor is the best value in the farm power field.

International 15-30, $1750

This also is lower than any former price. You cannot find a better 4-plow tractor for the money.

All prices are f. o. b. Chicago. The Harvester Company advise us that these prices are made regardless of manufacturing costs, and that they do not guarantee to maintain them. These prices certainly justify the immediate purchase of a tractor.

We can arrange suitable terms for you. Come in and see us.

BASEBALL

Are Silent.

Chicago, August 4.—Officials of the Chicago Cubs maintained silence, today, regarding reports that John Evers is to be deposed as manager and Bill Killifer, veteran catcher, appointed to succeed him. No specific denial of the report has been made by Cubs officials. The only statement forthcoming was the assertion by President William L. Veeck that Evers is ill. Killifer is handling the club in the absence of Evers. Whether a change is made now or not, it is considered almost certain that a new manager will handle the Cubs next year.

Must Hit Home Run.

New York, August 4.—Babe Ruth must hit a home run today, to keep ahead of his 1920 record. His thirty-sixth homer, last year, came August 2 and his thirty-ninth, August 5. If he fails to hit a homer today or tomorrow, therefore, he will fall behind his record.

Tagging the Bases.

Homers by Jack Smith and McHenry helped the Cardinals trim the Giants.

Red Faber was hammered hard by the Red Sox. The Chicago outfielders did not make a put-out. Myers pitched for Boston.

The Pirates went on a batting spree, pounding Hubbell and Winters of the Phillies for fourteen hits.

$600,000 HOTEL OF 150 ROOMS FOR THIS CITY

Incorporation Papers Forwarded to Columbus Today.

MARION CHAMBER OF COMMERCE PROMOTES IT

Expected To Start Work on the Building by Fall—Site To Be Selected.

Application for articles of incorporation for the New Hotel company, of Marion, which plans to erect a $600,000 modern eight or nine-story hotel building in Marion within a year, was sent to the secretary of state this morning. The company will be incorporated for $300,000 common stock and the new hotel will be bonded for a like amount.

Applicants are Charles T. Gauvey, manager of the new Shawnee hotel, Springfield; A. F. Becher, Dayton, and W. H. Holverstott, A. J. Berry and Charles B. King, of Marion.

While options already have been secured by the company on two or more prospective sites, a location for the new hotel has not been selected.

Of 150 Rooms.

It is the intention of the company to construct an up-to-date fireproof structure of 150 rooms, each of the rooms to be equipped with a tub or shower bath. The building will be of reinforced concrete, faced with brick and trimmed with stone. The building will be so constructed that several additional floors can be added should expansion be necessary.

In addition to the lobby on the first floor, there will be space for three or four shops and in connection with the hotel there will be a cafeteria and dining-room. There also will be one or two private dining rooms, which can be used for dinner parties or dancing. Large sample rooms are to be constructed for the convenience of traveling salesmen. In short, it is the intention to put up a hotel building much the same as the New Shawnee in Springfield.

Begin Work This Fall.

W. E. & A. F. Becher company, of Dayton, well known hotel builders, will erect the new building and the hotel will be operated by the owners with Mr. Gauvey, one of the incorporators, as manager. It is the plan to begin work this fall and have the building completed and in operation in a year.

Earl Russ, of Indianapolis, is to be the architect for the new building. Mr. Russ designed the Shawnee, at Springfield; the Sinton, at Cincinnati; the McCurdy, at Evansville, Indiana, and several other well-known hotels.

Materialization of plans for the new building is the direct result of efforts of the Marion Chamber of Commerce started some months ago. At that time a hotel committee was appointed with C. B. King, Josiah Bindley, W. T. Jones, French Crow, L. H. Guthery, E. K. Uhler, J. F. Pendergast, Charles N. Phillips and F. B. Morrison as members.

Numerous Propositions.

Numerous propositions for a hotel were considered by this committee and finally it submitted a recommendation to the board of directors of the chamber of commerce to accept the proposal of the group which now proposes to construct the building. This recommendation was made only after a thorough investigation of the men interested.

Acceptance of the committee report was voted by the board and three men were named to work with the builders in perfecting the plans and completing the erection of the building. This plan provides for a committee composed of W. H. Holverstott, A. J. Berry, F. B. Morrison, Charles F. Gauvey and A. F. Becher to select site, handle the contracts for the work and complete the building.

CITY IN BRIEF

Store Addition, Work Shop—J. H. Selter secured a building permit, Wednesday, for a store addition on Uncapher avenue at an estimated cost of $400. A permit was also issued to George Rogers for a work shop on Herman street at a cost of $150.

Won't Accept Columbus Call—Rev. F. E. Hawes, who resigned three weeks ago as pastor of Fite Memorial Baptist church, will not accept the Columbus call, it was made known today. He expects to decide the first of next week where he will go.

Call from Richwood—The local police received a call from the Richwood marshal this morning asking them to be on the lookout for a Ford machine that was stolen at that place Wednesday evening. The license number of the machine was furnished the local department.

Fourteen Illegal Trainriders—Fourteen illegal trainriders, nine white and five black, were arrested by the Erie police this morning. They hailed from all parts of the country and claimed to be looking for work. The mayor turned them over to the service director to work for the city.

Marion Kiwanis to Kenton—Approximately thirty-two members of the Marion Kiwanis club expect to motor to Kenton this afternoon to attend the charter presentation of the Kenton Kiwanis club, an organization sponsored by the Marion club. The presentation speech will be delivered by Roe Fulkerson, Washington, editor of the Kiwanis magazine. The Marion men will meet at 4 o'clock this afternoon at the Hotel Marion to start on the trip.

Labor Day Speaker—Vice President Dodge, of the Brotherhood of Railway Trainmen, was engaged as one of the Labor-day speakers at the regular meeting of the Central Labor union Wednesday evening. A committee of five was appointed to confer with the mayor regarding arrangements for the boxing show to be held on that day and also on plans for clearing the streets during the parade. An invitation was extended to the farmers, through the Marion County Farm bureau, to secure a speaker and join with the unions in the observance of Labor day and invitations also have been extended to unions in surrounding cities to come to Marion for the celebration. Two new delegates were received and the attendance was the largest in months.

MAYOR ED. ANDREWS SEEKS SECOND TERM

Republican Candidate in Next Week's Primary for Renomination for Mayor of Marion.

Believing that my administration thus far during my first term as mayor is generally recognized by the people of Marion as having been clean and fair, I seek nomination to succeed myself in a second term. To that end, I am entered as a Republican candidate for nomination for mayor before the primary next Tuesday and solicit the support of the members of my party who believe my first term commends me for the nomination for a second.

Pool Closed to Boys.

Bathing and swimming privileges have been denied the members of the boys' department of the Y. M. C. A. and will remain closed to them until R. A. Wagner, boys' secretary, or George Hildebrandt, physical director, returns from Camp Wistagoman. This step which was taken this morning was deemed necessary, due to the fact that the boys had abused their privilege in the absence of the instructors, in their use of the showers and pool. The shower baths and pool will, however, remain open to senior members of the Y. M. C. A.

POLICE

Held for Investigation.

George Kalspothukos and James Honstantopolus were arrested this afternoon on complaint of several colored fellows and are being held on investigation charges. The men answered the description of two fellows who entered a bunk car on the Big Four in the east yards this morning and pilfered two suits of clothes, a pair of trousers, some silk shirts, pair of shoes, a razor and some other articels belonging to Charles Moore and Robert Rippey.

Poultry Culling in County.

In an effort to bring poultry raising in Marion county up to a higher standard, plans are now being carried out for poultry culling demonstrations in thirteen of the fifteen townships in the county. Prior to each of these demonstrations, S. B. Slowe, county farm agent, is conducting a school in each of the townships at which instruction in the work is given four persons and they have charge of the demonstrations.

Will Exchange Pulpits.

NEW INEVESTIGATION OF AIRCRAFT SCANDAL

A Probe Is Ordered by Department of Justice.

Washington, August 4.—Acting Attorney General Guy D. Goff, today announced that a new investigation has been ordered by the department of justice into the war aircraft scandal, in which billions of dollars were spent without producing a single aeroplane that saw action at the front.

The aircraft probe is expected to disclose the identity of a number of individuals and concerns who mulcted the government, Goff said. Some of the charges now made the basis of investigation make it apparent that heavy losses to the government occurred through conspiracies with "outsiders."

IN COMMON PLEAS

A General Denial.

A general denial of the allegations in the petition is contained in the answer of the defendant filed in the common pleas court today in the divorce suit of Ida L. Berry against Robert Berry. He especially denies the charge that he failed to provide for their child and asks dismissal of the petition. The answer was filed through Attorney J. H. Eymon.

Hearing Is Continued.

Hearing of the motion of the defendant for change of custody of the daughter, Ruth D. Cloninger, in the case of Lena E. Cloninger against Frank H. Cloninger, was continued this morning in the common pleas court until the morning of Saturday, September 10. The Cloningers were divorced November 17, 1920, and custody of the children was awarded to the mother. The boy, Earl D., died of injuries June 11, and the father, in his motion, charged the girl is not being given proper care.

PERSONAL

Mrs. John Shenk and daughter, Alma Jane, have returned to their home in New York City after a visit with the former's parents in Lima and with Mr. and Mrs. J. G. Sutton, of Thew avenue.
